

“A timely and critical look at how cutting-edge surveillance technologies are being weaponized against civil society . . .

A must read.” — ZIYA TONG, SCIENCE BROADCASTER & AUTHOR OF *THE REALITY BUBBLE*

“Deibert is a legend in security and tech circles because of his work as the founder and director of the Citizen Lab.”

— MISHA GLENNY, AUTHOR OF *MCMAFIA* AND *DARKMARKET*

DIGITAL TECHNOLOGIES have given rise to a new machine-based civilization that is increasingly linked to a growing number of social and political maladies. Accountability is weak and exploitation is endemic. In *Reset*, Ronald J. Deibert exposes the impacts of this communications ecosystem on civil society. He tracks a mostly unregulated surveillance industry, innovations in remote control technologies, superpower policing practices, dark PR firms, and highly profitable hack-for-hire services. Deibert also shows how dependence on social media and its expanding universe of consumer electronics creates immense pressure on the natural environment. In order to combat authoritarian practices, environmental degradation, and rampant electronic consumerism, he urges restraints on tech platforms and governments to reclaim the internet for civil society.

“Tech is at a crossroads between oppression and liberation, and Ronald J. Deibert is our leading expert on the forces steering it in either direction.” — CORY DOCTOROW, AUTHOR OF

*RADICALIZED AND WALKAWAY*

“Essential reading.”

— MARIETJE SCHAAKE, INTERNATIONAL POLICY DIRECTOR OF THE CYBER POLICY CENTER, STANFORD UNIVERSITY, AND PRESIDENT OF THE CYBER PEACE INSTITUTE
